New Holland, PA Builds a New Playground with the Help of Elfuns Volunteers

It has a castle, a spaceship and twin towers. It has slides, swings and sandboxes; also bridges, rings, ladders and a climbing wall.

Day 1 Construction

These are the features of a new community playground constructed in June in New Holland, PA by volunteers of all ages **including an 11-member Team of Elfuns headed by Mike Ireland of GE Fanuc Automation, King of Prussia.** Team Captains such as Mike were assigned to help other volunteers who included skilled and unskilled, young and old, male and female working side by side over a five-day period.

Day 5 Construction

The Lancaster New Era newspaper of June 6th said "Mike Ireland, Account Executive from General Electric Company enjoyed doing something totally different from his Sales career." Later in the article, "local organizations, church groups and the Elfuns (a volunteer group from General Electric Company) donated manpower to the effort." Volunteers from the Greater Philadelphia Chapter were:

Edwin Abaka -	GE Corporate Environmental Programs
Roy Blickwedel -	"
Lisa Hamilton -	"
Kirk MacFarlane -	"
Dave Thompson-	"
Mike Ireland -	GE Fanuc Automation
Don Homer -	"
Steve Cline -	GE Aircraft Engines
Carl Scatena -	GE Corp. Properties & Services
Stephen Wallace -	"
Dan George -	"
